

Parent Letter

Dear Parent/Guardian,

Our school is very excited to offer your child the opportunity to learn about how to eat well using an innovative, online nutrition education game called **Titanium Chef** Online.

Titanium Chef Online was produced by BC Dairy Foundation, a not-for-profit organization that has been providing nutrition education programs to students in BC for over 30 years. The programs are based on Canada's Food Guide and are designed to meet learning outcomes in BC Ministry of Education curricula.

As is standard practice with online games, children under the age of 15 years need parental permission to play the game. In **Titanium Chef** Online, a parent's email address is requested. This email address will only be used by BC Dairy Foundation to confirm your consent and to send any important parental notices related to the game. Please indicate below the parent's email address your child should use.

If you do not have an email address, you may give your permission by signing below.

While **Titanium Chef** Online was developed primarily to be a classroom resource, your child may also be encouraged to play at home.

Feel free to check out **Titanium Chef** Online for yourself – ask your child to help set you up to play! The game has received rave reviews, both from an educational and entertainment perspective. If you do have a chance to play, your feedback on **Titanium Chef** Online is most welcome.

For further information, please do not hesitate to contact me or the nutrition educators at BC Dairy Foundation by calling 604.294.3775 or toll free in BC at 1.800.242.6455, or by emailing them at contactus@bcdf.ca, or by writing them at 3236 Beta Ave., Burnaby, BC, V5G 4K4.

Or simply visit www.titaniumchef.ca!

Thank you,

Teacher

I give permission for my son/daughter to play **Titanium Chef** Online:
